

NEW Contra-angle

CA 1:2.5

Apicectomy

Wisdom tooth extraction

Crown lengthening

Hemisection

Versatile
and ergonomic

The new CA 1:2.5 L Micro-Series is the gold standard contra-angle for surgery and periodontics.

Thanks to its speed increasing ratio, the CA 1:2.5 L Micro-Series can be used for a wide range of clinical applications: wisdom tooth extraction, apicectomy, crown lengthening and hemisection.
